EVERYTHING ON THE THEME PAGE IS FREE. A TEASER TRAILER FOR THE GAME IS AVAILABLE ON YT: Every single person in the world that's watched a trailer for this game has been thinking the exact same thing I have no idea what that thing is that's connected to the hand The question is, should I be concerned or terrified? You know what, I'm not worried You know what, I'm not scared I'm just not worried Ain't not worried about it Why am I not worried about that I'm not concerned or excited Not concerned, not excited. But hey, all three is a perfectly valid response because when you sign up for the Elden Ring Torrent Download website, you get a free beta key And if you sign up for the Elden Ring website and you sign up under my referral code, you get a free beta key It's a free beta key! Come try the game and see if you like it! It's absolutely worth your time. If you need help, I can introduce you to the developer And if you need help, they'll introduce you to the developer. And even if you don't need help, they'll introduce you to the developer. It's an elven game. It's made by an elf. So that's your character. He's not-- I should say, you know, there's no talking about the game here because that's all I can say so far. So there's no talking about the game here because that's all I can say so far. Oh, wait. There was talking about the game and now it's just a series of twitch chat comment spam But that's ok because I wanted to say something about the game anyway. So the lore that they've been building up is that this world is actually a lost world of Elden, an old people land that's completely destroyed and shattered. Elden was the name of the great kingdom, and now it's just a dead world that's probably dead because there's nobody here to defend it. So they're just wandering around and they're feeling around, and they just stumbled upon this world. And this world seems to be kind of like the world itself. A bit more fragmented.
